

LE BOIS JACOU

RED WINE, GAMAY GRAPE, TOURAINE AOC

Characteristics: Red ruby colour. Fruity and easy drinking, pleasant mouth filling delivering tons of red fruit characters. This is a wine to drink young, on its primary fruit.

Soils and location: South / southeast facing slopes, on deep chalky soils with clay top soil.

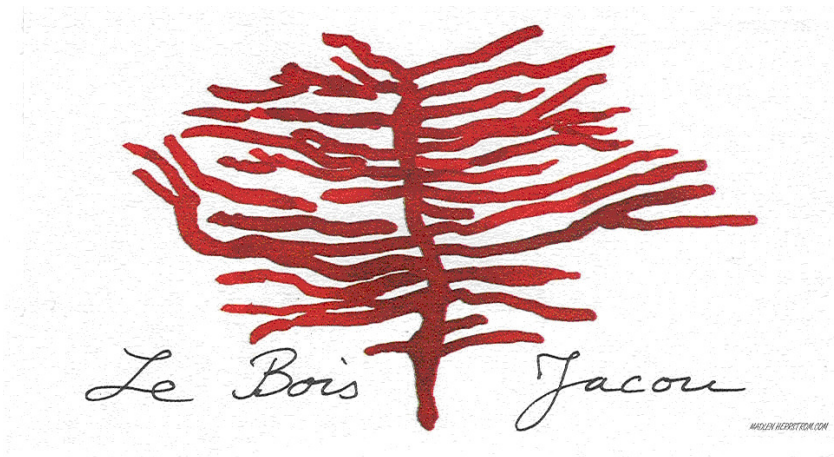

Area: 10 hectares of vines aged 10 to 60 years.

Yield: 40 hectolitres / hectare

Winemaking: Hand harvested, with a mix of carbonic and traditional maceration

Food matching: Really good with local rillettes and rillons. Will also pair pleasantly with grilled meats, as well as soft and mild cheeses.

Enjoy slightly chilled.
